

Directory of Community micro-providers in Somerset

The Somerset Community micro-enterprise Project has been helping local people to set up small (micro) businesses that can provide local services for people who need some help and support. The project is a partnership between Somerset County Council and social enterprise Community Catalyts. The providers usually offer care and support in really flexible ways, at times that suit you and with an emphasis on putting you first. **It is important to be aware that just because a provider is in this directory, it does not mean that they have been accredited or approved in any way by Somerset County Council or Community Catalyts.** See the small print below for a bit more information about what this means. We recommend that before you use or buy service or support from any provider on this list you check them out first. You are purchasing services or support directly from them so you need to be sure they will do what you want in the way that you want it.

The questions you'll need to ask and find out will be personal to you and your circumstances. Here's a few things for you to consider:

- **If the provider is helping you with your personal care (such as bathing, dressing, using the toilet, taking medication) in the place where you live, they may need to be registered with the Care Quality Commission. There is an exemption from registration if the provider is an individual, contracted directly by you, working under your control and direction. Is this the case? Are you happy to do this? If unsure contact the CQC on 03000616161.**
- Is the provider going to be reliable and professional? Ask for references from other people they have supported? Have they the right training and qualifications?
- **Check how the provider ensures the safety of the people that they support? Has the provider and their workers had a criminal records (DBS) check? Have they suitable public liability insurance? Do they have policies (and use them!) on things like health and safety, confidentiality and safeguarding?**
- What are everyone's rights and responsibilities in the arrangement? Is there a contract that you'll both have to sign that will clearly set out who will do what, when, where and how? How much will you have to pay and how will this happen in practice?
- **Community micro-providers are often sole traders and as such are self-employed and not employed by you. Ask for documentation proving they are self-employed. Do they provide invoices with receipts? As a sole trader, providers can choose if and when they work for you and organise replacement cover, will this work for you? It is your responsibility to check employment status of a worker. You can check by using the [Employment Status Indicator Tool](#) or calling HMRC on 0300 123 2326.**

Somerset County Council and Community Catalyts cannot accept any responsibility or liability for the information provided by any provider on this list. We cannot guarantee quality or satisfaction of the services of any provider on this list and we will not arbitrate or participate in resolving any dispute that you may have with any provider on this list. If you know someone who would like to set up a small service or be included on the directory please contact Rhys Davies on 07595411945 or rhys.davies@communitycatalysts.co.uk. If you can't find what you are looking for please visit www.somersetchoices.org.uk. If you have any safeguarding concerns contact Adult Social Care on 0300 123 2224.
